SUMMARY

Detail-oriented professional with expertise in Front-End development and Network Engineering. Proven experience in leading teams, managing projects, and adept at problem-solving. Known for adaptability to new challenges and demonstrating fast learning skills.

WORK EXPERIENCE

PIONEER NETWORK

Web Developer Intern

(January 2020 - March 2020 | 3 months)

During my three-month internship at Pioneer Network, I honed my skills as a Web Developer, specializing in Bootstrap 4 and jQuery.

ME THE SYRIAN

Volunteer

(May 2021 - July 2022)

Devoted a year to volunteering in hiking, notably contributing to building a recreational camp for children of martyrs. Demonstrated dedication to community service and strong collaboration skills, achieving impactful outcomes in various camp-related activities.

E-SOLUTION GROUP

Project Manager & Front-End Developer

(June 2023 - December 2023)

In my role at E-Solution Group, I have taken on the responsibilities of both a Project Manager and Front-End Developer. Working with cutting-edge technologies such as Vue.js and Vuetify, I have successfully managed projects while simultaneously contributing as a hands-on developer. Additionally, I have acquired proficiency in WHM and cPanel.
